

AV Requirements...to help you make your event an UNFORGETTABLE EXPERIENCE.

When you get Darren, he is all in! He's on your team. He's there to serve.

Every presenter is different. Every event is different.

Here is what Darren needs to fit Darren's animated, full-stage style to serve you.

Please reach out and ask if you have any questions.

IMPORTANT General:

- **Darren does not present during meals, socializing or otherwise distracted.** We all want a win/win presentation. You are bringing him in to deliver a "keynote experience" for your audience.
- Video-taping Darren's keynote presentation can be done for internal and archival use. We require a hi-res digital cope of the video-taping.

Microphone:

- Darren prefers a Countryman headset or wireless lavalier lapel mic. Handheld can be backup.

Computer:

- Darren needs audio out of his laptop to show slides and play video clips. This is important.
- He uses his own Apple computer and can connect via VGA or HDMI.

Staging:

- Please have the audience as close as possible to the stage. Connection = experience.
- Please provide at least an 8'X12' or larger stage/riser appropriate for the room and situation.
- If there are any props or tables on stage, they are to be cleared or moved to the back of the stage.
- If there's a lectern on stage, please put it on left or right at least 3 feet back from the front.
- If you'd like Darren to bring his books to reinforce this message, please provide a table for a book signing.

This is all so that Darren will be at his absolute best and make you look great!
